Vitrine Cooler GN1/3

Stainless steel|Glass structure for protection of food|Accepts GN1/3 pans (Not supplied)|Digital controller and temperature display|Static cooling|Adjustable feet

Refrigerated topping unit for GN1/3 pans

The GVC38 range of vitrine coolers is a great addition to gastro counters, as it enables you to have everything you need for food preparation within reach. It accepts GN1/3, GN1/6 and GN1/2 pans (not included). The cooler is made in SS201 stainless steel with a glass sneeze-guard to protect the food. Ideal for pizza places, fast food restaurants, and sandwich shops.

Incl. spareparts 1 year
