High-end Backbar Cooler

Many customisation possibilities|Removable cooling unit for easy service|Fast pull-down of temperature|Ventilated cooling|Digital controller and temperature display|Adjustable plate shelves|Skinplate exterior/interior|Optional lock|LED Color light with remote control

High-end backbar with unlimited options

The SCL Combi-Line from Serrco offers a range of opportunities. It comes with solid doors as standard but can be customized with different modules/fronets to meet your needs. It features adjustable plate shelves and white LED lighting. The cooling unit is installed as a removable module, which reduces service time from hours to mere minutes.

Incl. spareparts 1 year
