High-end KEG Cooler

Suitable for all KEG types|Machine unit sold separately|Prepared cut-outs for machine unit|Panel construction flatpack|Skinplate exterior/interior|Reinforced base plate|Adjustable legs (from inside the cabinet)|Low energy consumption

High-end cold room for KEGs

The SKB range of keg coolers offers a smart panel design, perfect for installment in tight spaces like cellars. Delivered as flatpack, these coolers store 20L, 30L, and 50L kegs or crates with ease. Features include a reinforced base, large doors for easy access, and adjustable legs. The machine cooling unit comes separately. Incl. spareparts 1 year
