Slim Display Freezer

Great product presentation|Ideal for branding|LED illuminated canopy|LED interior light|Heated glass to help prevent condensation|Adjustable shelves|Automatic defrost|Digital controller and temperature display

Slim display freezer with canopy

The FSF slim display freezer is only 435 mm wide and is therefore perfect for places where you have limited space for showcasing frozen treats. It is equipped with an illuminated canopy, adjustable shelves, interior LED lighting, and a heated glass door for a great product display.

Incl. spareparts 1 year
